10/2: Friday's Made for Heavy Petting

HER NAME IS RIO: You know we're always up for a free concert. Especially when it's bands like Rio de Janeiro's own *Bossacucanova*. They'll be performing as part of a celebration for the *Biscayne Boulevard New World Design* project by legendary Brazilian designer *Roberto Burle Marx*. It's a celebration of Brazilian culture at the East Plaza of *American Airlines Arena*, with an after party at *Botequim Carioca*. Let's comemora. 5:30 P.M.
